

FINAL CALL FOR PAPERS

LA-WEB 2007 - 5th Latin American Web Congress

October 31st - November 2nd, 2007, Santiago, Chile

Introduction

LA-Web 2007 is the fifth of a series of refereed conferences aimed at providing a venue in Latin America for researchers and technologists from around the world to present, demonstrate and discuss the latest Web developments. LA-Web 2007 will be held in Santiago de Chile.

LA-WEB 2007 is endorsed by the IW3C2 International World Wide Web Conference Committee and its proceedings will be published by the IEEE Computer Society Press. This year, the first day of LA-WEB will hold joint-sessions along with SPIRE 2007.

We invite high quality papers describing original work in all areas of Web research.

Papers should properly place the work in the context of the conference's theme, cite related work, and clearly indicate its innovative aspects and contributions to the field.

Papers must be submitted electronically via the conference's website, and must be formatted using the IEEE-CS guidelines (see below).

We encourage authors to submit concise papers of up to 8 pages; however, papers up to 10 pages long may be submitted, and two additional pages (for a maximum of 12) may be purchased later.

Location

LA-Web 2007 will be held in Santiago de Chile. Santiago is a 6 million people Metropolis surrounded by mountains and full of cultural activities and nightlife. Downtown Santiago has a mix

of historical buildings and modern crystal towers, some of its historical highlights include La Moneda, the mint house which functions as the Palace of Government, which citizens and visitors can walk through. On privileged clean-air days, you can ascend the Metropolitan Park at Cerro San Cristóbal for a great overview of the city and its surroundings.

Santiago is also only one hour apart from the coast and the mountains, serving as a great base camp for short trips from the city. Valparaiso and Cajon del Maipo are some typical examples of these trips. Accommodation in Santiago is broad and wide, you choose from luxurious 5 star hotels to warm Bn'Bs.
